

**Tender No: 110290/WGI/GAIL GAS/05-R0**

**DATE: 14.11.2009**

Sr. No.	Section / Clause No.	Tender Doc. Page No.	Clause Description	Clarification Required	Clarifications
1	Document No: 11-290-02-07-02-003 Clause 4.1.3	Page 5 of 19	Each Batch of material	Which raw materials they are looking for either black or orange compounded materials ? In clause 4.1.3 of page 5 of 19 the tender document is asked for carbon black content , where as in separate clause it is mentioned as local requirement is in orange colour . Hence the buyer must clear this point.	The material shall be PE-100 orange.
2				Which specifications to follow for manufacturing and inspection i.e, ISO : 4437 or IS : 14885.	Bidder to follow WGI specifications as specified in Technical part of the tender for manufacturing and inspection.
3	Annexure -1 to IFB	Page 6 of 117	Bid Evaluation Criteria	In the bidders eligibility criteria the turnover asked for PE : 100 grade in relevant SDR 17.6 / 11 only but the major buyers of PE pipe is in the category of PE : 80 only in this regard we must say that IGL, MGL, MNGL, TNGCL, hence we request for the credentials for supply of PE : 80 pipes for gaseous fuel as to considered as valid credentials as to meet up the bidders eligibility criteria.	Tender Conditions prevail.
4				Requested for different price schedule for different delivery locations.	Tender Condition Prevail
5				Please be informed that PE100 Orange material is manufactured by 4 - 5 companies worldwide. The price provided by these companies is on a monthly validity basis that is in the beginning of each month and once again subject to be changed in the beginning of the next month. Considering the same, we consider it extremely difficult to calculate the price in the Tender knowing very well that you would like to have this price validity for 4 months. We therefore urge you to consider the following:  1. To amend the Bid submission date to 7th December 09 instead of 27th November 09, as this would allow us to consider December price of raw material in our calculation.  2. Please expedite the opening of the Price Bid from the date of submission to 3rd week of December to allow us to	Tender Condition Prevail  Tender Condition Prevail  Tender Condition Prevail

				book raw material at the price considered in our calculation if we are declared the L1 Bidder. Other formalities and issue of formal order can follow later.	
6.				In Bid Evaluation Criteria in pt. 2.2.1.2 the term MDPE must be changed to PE100 orange. Please be informed that the term MDPE clearly indicates PE80 Yellow which is not the requirement as per the Tender. This is of prime importance to ensure that the technical criteria is met accurately as per your requirement. In this case we also urge you to please change the term MDPE to PE100 orange in all sections wherever mentioned to have total clarity with regard to your requirement	Refer S.NO.1 above
